

SF

GROUP
BREATHE

We have created SF Group BREATHE Platform in order to provide business and private travellers with vital information and peace of mind while moving around within challenging environments.

SF Group BREATHE

SF Group BREATHE is a unique security tool that allows businesses and organisations to identify, analyse and mitigate risk to personnel, assets and reputation.

BREATHE is an online platform that provides the user

with a visual incident database, intelligent heat mapping and powerful in-built analytics. The information is collated from all-source intelligence and analysed by a team of experienced specialists to provide timely, actionable intelligence on a user-friendly, interactive GIS platform.

Platform Features

Alerts

Tracking

Privacy Controls

Intelligence Reports

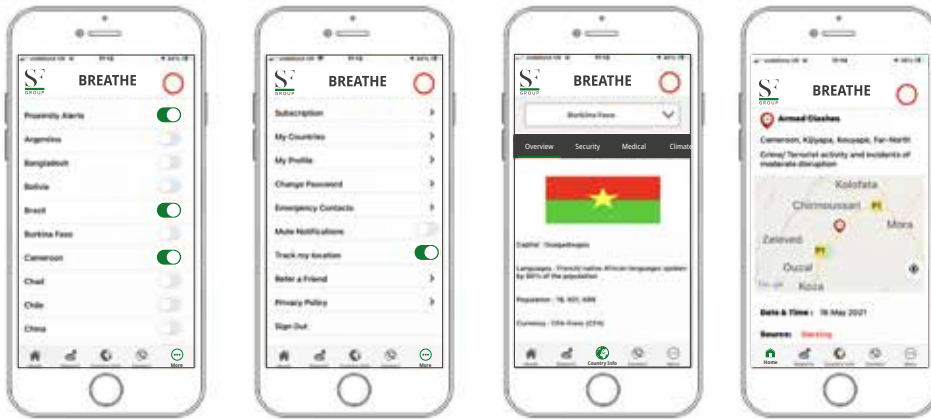

SOS Function

Non-intrusive tracking

BREATHE Easy

We have developed the SF Group BREATHE Easy mobile application. The App is tethered to the main platform via a low bandwidth GSM link in order to provide business and private travellers with vital information and peace of mind while moving around within challenging environments.

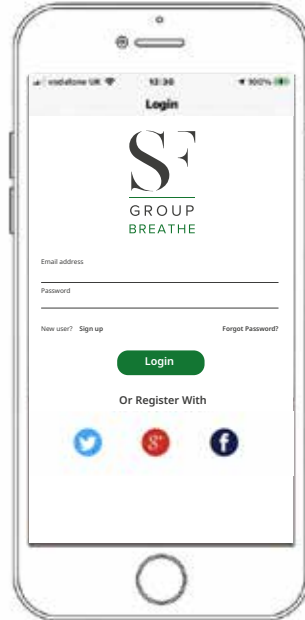

Alerts

Push notifications will alert the user in real time to security incidents that may affect personnel security and safety.

Analytics

In-built analytics will provide information that may be vital to your travel plans to ensure you do not run into unnecessary problems.

Country Info

Country Info Detailed country information will assist with protocols, procedures and tips for successful travel in key locations.

My Location

Check-in with family, next of kin or employer to ensure they know you are safe. Send immediate SOS distress calls to a person of your choosing.

Reports

Periodic analytical reports will ensure the traveller has all the information on trends, areas of insecurity and mitigation advice, ahead of time.

We believe the SF Group BREATHE service to be revolutionary and industry leading. Our understanding of our areas of operation is second to none and we are now able to share this on an interactive and user friendly platform.

BREATHE is a cost effective, flexible service that can inform decision makers with accurate, timely information, to assist with making the right decisions, plan operation and management personnel within one integrated platform.

For further information or to request a free one week trial on the BREATHE Platform please contact our team on breathe@sf-group.co
